

The Alba Collection

The Alba Collection is a celebration of legacy, offering objects that not only enhance the beauty of your home but also invite warmth, protection, and a sense of belonging.

Each item is a tribute to a woman whose love and attention to detail shaped the lives of everyone around her.

We hope you love this collection.

Malili & Christine

M

We are very excited to present our
Spring collection with new
products designed for this season!

Enjoy it!

travesía es la recopilación fotográfica más completa por primera vez. Se tienen registros de especies en la llanura y en la hermosa región, travesía de los municipios del Departamento de Casanare, no solo a descubrirla sino a disfrutarla, convirtiéndose en una herramienta para expertos y novatos en el mundo de la observación de aves.

Este libro enfoca sus esfuerzos en la conservación y valoración de la riqueza natural del Casanare y apunta al incremento de interés en la conservación de las especies que se encuentran en la región a través del fortalecimiento como de la protección de las áreas de conservación y hábitats de especies consideradas amenazadas según la unión internacional para la conservación de la naturaleza - UICN.

This is the most complete photographic compilation of the Department of Casanare; for the first time, records of species in the high mountains, plains and flooding plains from this journey has 410 species of birds from the region's avifauna. These species will allow you to know, to identify and enjoy them all across the 9 municipalities of the Department. There are 470 hectares of the region to you, not only to discover it but to enjoy it. This book is a tool for experts and novices in the world of birding.

This book focuses its efforts on the conservation and valuation of the natural richness of the Casanare, pointing to the increase of interest in the conservation of the species that are found in the region, both, the strengthening and protection of the areas of conservation and habitats of species considered as threatened according to the international union for the conservation of nature - IUCN.

The image shows a close-up of a yellow woven basket. The basket features a complex, interlocking woven pattern that creates a grid of small, irregular openings. In the center of the basket, there is a circular area with a sunburst or radial pattern, where lines radiate from the center to the edge. The text "Our must-have products" is overlaid on this central circular area in a dark, serif font.
